The screenshot shows a code editor with two tabs open: `app.component.html` and `body.component.ts`. The `app.component.html` tab is active, displaying the following code:

```
my-profile > src > app > app.component.html > ...
1 <app-header></app-header>
2 <app-body></app-body>
3 <app-footer></app-footer>
4 <router-outlet />
5
6
```

The screenshot shows a code editor with two tabs open: `app.component.html` and `header.component.ts`. The `header.component.ts` tab is active, displaying the following code:

```
my-profile > src > app > header > header.component.ts > HeaderComponent
1 import { Component } from '@angular/core';
2
3 @Component({
4   selector: 'app-header',
5   standalone: false,
6   templateUrl: './header.component.html',
7   styleUrls: ['./header.component.css']
8 })
9 export class HeaderComponent {
10   title = "My Profile"
11
12
13 }
14
```

The screenshot shows a code editor with two tabs open: `app.component.html` and `header.component.html`. The `header.component.html` tab is active, displaying the following code:

```
my-profile > src > app > header > header.component.html > header
1 <header>
2   <h1>{{title}}</h1>
3
4 </header>
```
